Recently graduated Practical Engineering, I am highly motivated and eager to develop, great team player, fast learner and self learner.

looking for my first job as a FullStack/FrontEnd developer .

Projects

library – Angular and JSON Server

I developed and designed a website using Angular and Bootstrap with DB JSON. A shop for books, user can sign up/sign in .
user can add to cart , buy books and see their description .

Health routine -MEAN Stack Graduation Project

I developed and designed a website for tracking user medicine, by adding medicine details (alert of send by mail).
user as well can buy natural product (simulation)
, pharmacy address search, and sign up/sign in.
